

Big Game Rules 2008

General Wildlife Laws

All hunters must have a valid Idaho hunting license and the appropriate tags or permits in their possession while hunting.

Hunting Hours: Big game animals may be hunted only from one-half hour before sunrise to one-half hour after sunset

Definition of Hunting: Hunting means chasing, driving, flushing, attracting, pursuing, worrying, following or on the trail of, shooting at, stalking, or lying in wait for any wildlife whether or not such wildlife is then subsequently captured, killed, taken or wounded.

Age Limit: Only properly licensed youths 12 or older may hunt big game.

Bag and Possession Limits: A hunter may harvest only as many of a big game animal species as he or she has legal tags for in that year. Any animal harvested in a depredation hunt before a controlled hunt in the same unit for which the hunter holds a tag must be included under the limit and tagging rules of the controlled hunt permit. No person may take more than one animal per year during a controlled hunt season by using both a controlled hunt permit and a depredation permit.

Gifts of Wildlife: No person may possess more game animals, birds or fish taken within the state than allowed by personal possession limits.

Mandatory Hunter Reporting Requirements: All deer, elk, and pronghorn hunters will be provided a Hunter Report Card with each tag. All hunters must complete and submit a report by mail, fax, phone, or Internet, for each tag issued, within 10 days of harvest. Hunters that do not harvest are required to file a report within 10 days after the close of the hunting season.

The best way to submit hunt information and the only way to get confirmation that the report was received is to do it online. Go to <https://www.idaho-hunt.com>.

To submit by phone, call toll free 1-877-268-9365. Mandatory report cards may also be mailed to Hunter Harvest Reports, P.O. Box 70007, Boise ID 83707-0107.

Waste of Game

Hunters are required to remove and care for the edible meat of big game animals, **except** mountain lion. This includes the meat of the front quarters as far down as the knee, hindquarters as far down as the hock, the neck meat, meat along the backbone, and meat covering the ribs. It does not include meat of the head, internal organs, or meat on the bones after close trimming.

Wounding and Retrieving

No person shall wound or kill any big game animal without making a reasonable effort to retrieve it and reduce it to possession. It is unlawful to enter private property that is posted, cultivated or in irrigated pasture without landowner permission to retrieve game.

Electronic Calls

No electronic calls may be used to attract big game for the purpose of harvest, **except** such calls may be used to attract mountain lions in Big Game Units 41 and 42.

It is Unlawful To:

- Hunt or take any wildlife without a valid hunting license or without required tag or permit in possession.
- Party hunt, or help fill another person's tag.
- Shoot from or across the traveled portion, shoulders, or embankments of any road maintained by any government entity.
- Hunt big game or game birds from or by the use of any motorized vehicle, **except** for holders of a valid handicapped person's Motor Vehicle Hunting Permit when vehicle is stopped and off public roadways. See Upland Game, Turkey and Furbearer rules brochure for other exceptions.
- Use any motorized vehicle to molest, stir up, rally or drive any game animal or game bird.
- Operate any vehicle in an area designated as closed for that specific vehicle type.
- Operate or use as an aid to hunting a motor vehicle in violation of area, trail, or road restrictions.
- Use aircraft to locate game or furbearing animals and communicate location to persons on the ground, or to use any helicopter to transport hunters, gear, or game except at established landing fields.
- Fail to stop – with or without fish or wildlife – at any Fish and Game check station encountered, even if your hunting, fishing or trapping activity occurred outside the state of Idaho.
- Fail to produce wildlife for inspection upon request of a conservation officer or other person authorized to enforce Idaho Fish and Game rules.
- Hunt any wildlife species with the aid of artificial light, **except** raccoons. See furbearer rules in Upland Game Seasons brochure for specific regulations and other exceptions.
- Hunt big game with dogs **except** for black bear and mountain lion. See bear and mountain lion sections for details.
- Transfer any license, tag, or permit or use another's license, tag, or permit.
- Acquire more controlled hunt permits or tags per species than that species' bag limit.
- Destroy or disturb traps, or remove any wildlife from traps belonging to others.

- Enter Idaho with livestock without a health certificate for transport and a brand inspection slip.
- Intentionally interfere with the lawful taking of wildlife or lawful predator control by another.
- Hunt any game animal by means of baiting with grain, salt in any form, liquid or solid, or any other substance – including nonagricultural water as an attractant, but not liquid scents – to constitute an attraction or enticement, with the exception of applicable rules for the black bear baiting permit. (See pages 54 and 55.)

Areas Closed to Big Game Hunting:

- All state parks, except Farragut State Park and Farragut Wildlife Management Area which has a November 1 through December 1 deer archery season, and Billingsley Creek at Malad Gorge State Park, Castle Rock State Park and state land within the City of Rocks National Reserve are open to all hunting.
- Part of the Craters of the Moon National Monument is closed to hunting. For information visit: <http://data2.itc.nps.gov/parks/crmo/ppMaps/national%20preserve.jpg>
- Nez Perce National Historical Park in Clearwater, Idaho, and Nez Perce counties.
- Harriman State Park Wildlife Refuge.
- That portion of Ada County within Veterans Memorial Park and the area between State Highway 21, Warm Springs Avenue, and the Boise City limits.
- Yellowstone National Park in Fremont County.
- Any of those portions of state game preserves, state wildlife management areas, bird preserves, bird refuges, and bird sanctuaries that have been closed to hunting by legislative or commission action.
- All or portions of national wildlife refuges, except as specified in federal regulations for individual refuges.
- All Snake River islands between Glenns Ferry bridge and Sailor Creek bridge in Elmore County.
- Hagerman Fossil Beds National Monument in Twin Falls County, except that portion within an area 50 feet above the high water level of the Snake River. The upslope area is marked by yellow fiberglass markers, and hunting is permitted downslope to the river.
- Mountain lions may not be hunted or pursued within one-half mile of any active Idaho Fish and Game big game feeding site.
- Black bears may not be hunted or pursued within 200 yards of the perimeter of any designated dump ground or landfill.

Trespass Law

No person may enter private land to hunt, fish or trap or retrieve wildlife without permission if the land is either cultivated or posted with legible “No Trespassing” signs. Proper posting means either signs, 100 square inches of fluorescent orange paint, or an entire fluorescent orange

metal fence post every 660 feet around the property and at reasonable access points.

Land that has been loosened or broken up in preparation for raising crops, used for raising crops or as irrigated pasture is considered cultivated.

It is unlawful for anyone to post public land that is not held under an exclusive control lease. Conviction of trespass on cultivated or posted private property for the purpose of hunting, trapping or fishing carries a mandatory one-year revocation of hunting, fishing or trapping licenses.

Federal law prohibits unauthorized trespass on Indian-owned reservation lands for hunting, fishing, or trapping purposes.

Using Blinds on Public Lands - BLM

Hunting blinds placed on public lands managed by the Bureau of Land Management must meet the following criteria:

1. **Construction materials** – Portable pop-up blinds are encouraged. No permanent placement of materials is allowed and all materials must be removable. Wire mesh, which may be hazardous to wildlife or livestock, is not allowed. Damage to natural and cultural resources by actions such as digging, trenching, or other surface disturbances are prohibited. Cutting live vegetation to build, screen or camouflage blinds is discouraged.
2. **Labeling** – The hunter’s full name and zip code must be permanently attached, etched, engraved or painted on the blind in an obvious location.
3. **Placement dates** – Blinds may be placed no earlier than 10 days before the beginning of the hunting season for which the hunter has a valid tag, and must be removed within seven days of the close of that hunting season.
4. **Right of use** – Blinds may be used by hunters on a first-come, first-served basis. Placement of a blind on public land does not create an exclusive right of use. Locking blinds is not allowed. Please be respectful of other hunters’ blinds.
5. **Wildlife or livestock developments** – Diverting water, tampering with or modifying rangeland developments, such as watering troughs, reservoirs, springs, fences, or related structures or water sources is prohibited. Hunters may not harass livestock or impede their access to water sources.

Placement or use of hunting blinds beyond that described above is a violation of federal regulations and may be subject to criminal penalty. For more information, please contact the nearest BLM office.

Closed Seasons: There is **no open season** for caribou, bison (buffalo), grizzly bear or lynx. With the exception of bison, these are threatened or endangered species and are protected by state and federal laws. Please report any suspected sightings of gray wolves or lynx to the U.S. Fish and Wildlife Service in Boise at 208-378-5243 or the nearest Fish and Game office.

Furbearers: Bobcats, badgers, raccoons and red foxes are classified as furbearers and may be hunted or trapped only during the furbearer season. No open season exists for lynx, wolverine or fishers. See upland game and trapping rules.

Possession and Sale of Wildlife Parts: Lawfully harvested wildlife parts – except edible meat from game animals – may be purchased, bartered or sold when accompanied by a written statement showing said wildlife was lawfully harvested. If black bear or mountain lion parts – excluding tanned or finished rugs or mounts – are sold or bartered, a signed written statement showing the taker’s name, address, license and tag numbers, date and the location of kill must be provided to the buyer. Buyers must submit completed transaction statements to Idaho Fish and Game within 10 days of sale.

Wildlife parts legally harvested outside of Idaho may be possessed and sold in Idaho if such sale is not prohibited in Idaho or the state, province or country where harvested, or by federal law.

It is unlawful to possess any wildlife or parts that were killed, taken or obtained unlawfully.

Possession and Sale of Wildlife Found Dead: Protected species of wildlife that have died of natural or accidental causes are generally considered property of the state and may not be possessed. But parts of big game species – horns, antlers, elk teeth, bear and lion parts – may be recovered and possessed for personal use if the animal died of natural causes. Lawfully recovered and possessed parts – except horns from bighorn sheep – may be sold, transferred, purchased or bartered, when accompanied by a statement on how it was obtained. It is unlawful to possess wildlife that has died from any human-inflicted cause (e.g. hit by a vehicle, poached, etc.) considered not from natural causes.

Edible meat from game animals taken from the wild may not be purchased, bartered or sold.

Recovery, Possession and Sale of Bighorn Sheep Horns: Horns from bighorn sheep that have died of natural causes may be recovered and possessed. All bighorn sheep horns must be presented to Fish and Game for marking with a permanent pin within 30 days of recovery. It is unlawful to sell, barter or purchase bighorn sheep horns obtained under these circumstances, or to transfer ownership of recovered bighorn sheep horns without a permit from Idaho Fish and Game.

Predatory and Unprotected Wildlife: Coyotes, skunks, weasels and jackrabbits are classified by Idaho law as predatory and unprotected. They may be taken in any number year-round and at any time by holders of the appropriate valid Idaho hunting or trapping licenses, provided such taking is not in violation of state, county or city laws, ordinances, rules or regulations.

Protected Nongame and Threatened or Endangered Species: No person shall take or possess wildlife species classified as Protected Nongame or Threatened or Endangered at any time or in any manner, except as provided in Sections 36-106(e)5 and 36-1107, Idaho Code, by Commission Regulation, or IDAPA 13.01.10.100.06b.

Livestock Health Certificate Requirement: Anyone bringing livestock or hunting dogs into the state should call the Idaho Department of Agriculture, 208-332-8540, for health certificate requirements.

Weed-Free Hay Requirement: On national forest lands or Idaho Fish and Game wildlife management areas, anyone using pack animals or straw in their camp must only use weed-free certified hay, forage or straw to prevent the spread of noxious weeds. To obtain an up-to-date list of local growers and vendors with noxious weed-free certified forage for sale, call the Department of Agriculture at 208-332-8592, or check: <http://www.idahoag.us/Categories/PlantsInsects/NoxiousWeeds/nwffs.php>. For more information on the Noxious Weed-Free Forage certification program visit: <http://idahoag.us/Categories/PlantsInsects/NoxiousWeeds/indexnoxweedmain.php>.

Prescribed Burning: Prescribed burning uses fire to restore forests and rangelands and improve conditions for wildlife. Prescribed fire may be planned in your hunting unit. **Stay informed.** Contact your local land management agencies

Wildlife Violator Compact

Many states including Idaho have entered into a “Wildlife Violator Compact.” If your hunting, fishing, or trapping license is revoked by any of the member states, all the remaining states will revoke the same license or privilege for the same time period. In addition, any nonresident who does not satisfy the requirements of an Idaho citation will have his or her hunting and fishing license revoked in their home state until those requirements are satisfied. For information on the Compact and a list of member states, go to <http://fishandgame.idaho.gov/cms/about/enforcement/violator.cfm>.

Weapon Restrictions

Rifle and Shotgun

In any hunt, including any-weapon seasons, it is unlawful to pursue or kill big game animals:

- By any means other than approved firearms, muzzleloaders and archery methods.
- With any electronic device attached to, or incorporated on, the firearm or scope; except scopes containing battery powered or tritium lighted reticles are allowed.
- With any firearm that, in combination with a scope, sling and/or any attachments, weighs more than 16 pounds.
- With any fully automatic firearm.
- With any shotgun using shot smaller than #00 buck.
- With any rimfire rifle, rimfire handgun, or muzzle-loading handgun, except for mountain lion.

Short Range Weapons

In big game seasons restricted to short-range weapons, it is unlawful for hunters to use any weapon other than a muzzleloader, archery equipment, crossbow, or a shotgun using slugs or shot of size #00 buck or larger.

Muzzleloader Caliber Requirements

In any hunt, including general any-weapon seasons and short-range hunts, it is unlawful to pursue or kill big game animals:

- With any muzzleloading rifle or musket that is less than .45 caliber for deer, pronghorn, or mountain lion; or is less than .50 caliber for elk, moose, bighorn sheep, mountain goat or black bear.

Muzzleloader-Only Season

Any person hunting in a muzzleloader-only season, including controlled hunts, must have in their possession a license with a muzzleloader permit validation. During a muzzleloader-only season, it is illegal to pursue or kill a big game animal with any firearm, muzzleloading pistol, or weapon other than a muzzleloading rifle or musket. In addition, the muzzleloading rifle or musket must be:

- Capable of being loaded only from the muzzle.
- Equipped with only open or peep sights. Scopes and any electronics are prohibited.
- Loaded only with loose black powder, loose Pyrodex, or other loose synthetic black powder. Pelletized powders are prohibited.
- Equipped with a single or double-barrel.
- Loaded with a projectile that is within .010 inch of the bore diameter. Sabots are prohibited.
- Loaded with a patched round ball or conical non-jacketed projectile comprised wholly of lead or lead alloy.
- Equipped only with a flint, percussion cap or musket cap. 209 primers are prohibited.

- Equipped with an ignition system in which any portion of the cap is exposed or visible when the weapon is cocked and ready to fire.

Archery Equipment

In any hunt, including general any-weapon seasons and short-range hunts, it is unlawful to pursue or kill big game animals:

- With arrows or bolts having broadheads measuring less than 7/8 inch in width and having a primary cutting edge less than 0.015 inch thick.
- With any bow having a peak draw weight of less than 40 pounds up to or at a draw of 28 inches.
- With an arrow or bolt wherein the broadhead does not precede shaft and nock.
- With any chemicals or explosives attached to the arrow or bolt.
- With arrows or bolts having expanding broadheads.
- With arrows or bolts having barbed broadheads, which is a broadhead with any portion of which forms an angle less than 90 degrees with the shaft or ferrule.
- With any electronic or tritium-powered device attached to an arrow, bolt or bow.
- With any bow capable of shooting more than one arrow at a time.
- With any compound bow set at more than 85 percent let-off.
- With an arrow or bolt, and broadhead with a combined total weight of less than 300 grains.
- With an arrow less than 24 inches from broadhead to nock inclusive.
- With a bolt (crossbow) less than 12 inches from broadhead to nock inclusive.

Archery-Only Season

Any person hunting in an archery-only season, including controlled hunts, must have their license with archery permit validation. During an archery-only season, it is illegal for hunters to use any firearm, crossbow, or implement other than a longbow, compound bow or recurve bow in compliance with general archery equipment requirements, or:

- Any bow equipped with magnifying sights.
- Any device that holds a bow at partial or full draw. **Except** handicapped hunters possessing a permit may use a device that holds a bow at partial or full draw. (Applications for the use of devices holding a bow at partial or full draw by handicapped hunters are available at Fish and Game offices).
- **Except** handicapped hunters possessing a permit may use a crossbow. (Applications for the use of crossbows by handicapped hunters are available at Fish and Game offices).

Hound Hunting Rules

Dogs

Dogs may be used to pursue black bears or mountain lions in either an open take season where use of dogs is allowed, or during a dog training season open for bear or mountain lion. Pursuit is allowed regardless of whether a black bear or lion already has been harvested. During a dog training season, black bears or lions may be pursued and treed, but may not be captured, killed, or possessed. Dogs may not be used to take or pursue any other big game species.

Any dog found running at large and actively tracking, pursuing, harassing, attacking or killing any big game animal, **except** black bear and mountain lion, may be destroyed without criminal or civil liability by the director of Fish and Game, any peace officer, or other persons authorized to enforce Idaho wildlife laws.

Hound Hunter Permit

When dogs are being used to hunt black bear or mountain lion, the following persons must have a valid hound hunter permit and a black bear or mountain lion tag for the current year in possession:

- Anyone who owns pursuit dogs.
- Anyone having control of dogs owned by another person.
- Anyone who harvests a black bear, mountain lion, bobcat, raccoon, or fox with the use of dogs. **Except**, clients of licensed outfitters are not required to have a hound hunter permit.

Resident hound hunter permits may be obtained from any license vendor. There is no limit on the number of resident hound hunter permits.

Limitation on hound hunter permits for nonresidents:

Nonresidents who want to apply for hound hunter permits should notify the license section at Fish and Game headquarters office in October. Permits for the following year are issued in December. No more than 70 nonresident hound hunter permits will be issued to nonresident hunters who are not licensed outfitters (see exceptions for Middle Fork and Selway zones). Nonresident outfitters and guides who have obtained a hound hunter permit shall not use the permit for personal hunting. Sales of nonresident hound hunter permits to the following persons shall not be counted in the quota for nonresidents:

- **Persons who have moved into Idaho** and by notarized affidavit show proof of their intent to become bona fide Idaho residents but are not yet qualified to buy a resident license.
- **Middle Fork Zone:** Persons who hound hunt solely in game management units within the Middle Fork elk zone (Units 20A, 26, and 27).
- **Selway Zone:** Persons who hound hunt solely within the Selway Zone (Units 16A, 17, 19, and 20). A total of 40 permits will be issued for Units 16A, 19, 20, and all

of Unit 17, excluding Hunt Area 17-1 which will have six permits. Hunt Area 17-1 is defined as that portion of Unit 17 south of the following boundary:

Beginning at the junction of the Unit 17 boundary and Forest Service Trail 24, then west along Forest Service Trail 24 to the Selway River, then north along the Selway River to Forest Service Trail 40, then southwest along Forest Service Trail 40 to Forest Service Trail 3, then west along Forest Service Trail 3 to the Unit 17 boundary.

Hound Hunter Alert: Selway and Middle Fork zones are wilderness areas. Vehicle access is restricted and rugged terrain can make pursuit extremely difficult. Contact the local Forest Service office for maps showing trails and access. Wolves may be present in any game management unit.

Tagging and Transporting Game

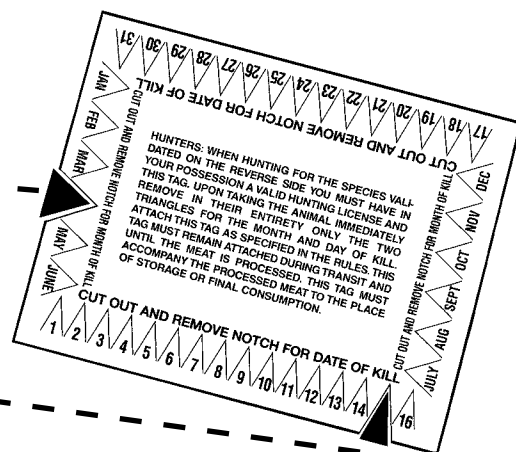

Proper Tagging and Transportation of Animals and Meat

Immediately after any deer, elk, pronghorn, black bear, or mountain lion has been killed, the hunter harvesting the animal must comply with the following regulations regarding the proper tagging, transportation and shipment of a carcass:

- The appropriate big game tag must be validated and securely attached to the animal immediately after the kill. The validated tag must remain attached to the carcass until the meat is processed and reaches the place or final storage or personal consumption.

How to properly validate a big game tag.

Hunters must completely remove two notches indicating month and day of kill.

Note: Immediately after the kill, the triangles denoting the month and day must be cleanly and completely removed. Tearing, slicing or punching the tag is not legal.

Proper location of tag:

- Deer, elk, pronghorn and black bear: Attach to the largest portion of the carcass.
- Mountain lion: Attach to the hide.

Any license, tag or permit that is defaced or altered is invalid from the date and time of issue. It is unlawful to use or attempt to use any license that has been defaced or altered.

Transportation issues:

Any person who transports any wildlife for another person or receives any wildlife for cleaning, processing, as a gift, or for storage must have a written proxy statement signed by the person who killed the animal specifying the numbers and kinds of wildlife, date taken, hunter's name and address, license, tag and permit numbers. The proxy form below is provided for your convenience.

Preserving evidence of sex:

Deer, elk and pronghorn: If the head or antlers are removed, evidence of sex in the form of testicles, penis, scrotum, udder or vulva must remain naturally attached to the carcass or parts thereof on all harvested big game animals until they reach the final place of storage or personal consumption.

Antlers or horns removed from the head must be left naturally attached to the skull plate where size, point or brow-tine restrictions apply, and they must accompany the carcass or parts thereof.

Black bears and mountain lions: External evidence of sex in the form of testicles, penis, scrotum or vulva must be left naturally attached to the hide until the mandatory check requirement has been satisfied.

In seasons restricted to mule deer only or white-tailed deer only, if the head is removed, the fully-haired tail must be left naturally attached to the carcass until it reaches the final place of storage or personal consumption.

PROXY STATEMENT (To transport wildlife taken by another person)

BIG GAME:	Species	Sex	Description (e.g.: antler points, wrapped, hind quarter, etc.)	Hunt Area Killed	Date Killed

License No. _____ Tag No. _____ Permit No. _____

Name of person transporting _____ Phone _____

Roads, Trails, Motor Vehicles and Wildlife

What You Need to Know

Motor vehicles, from pickups and SUVs to motorcycles and ATVs, have changed hunting and some of those changes have created challenges for hunters, land managers and wildlife. Consider the following:

- Roads that are open to motor vehicles increase access into big game habitat and as a result the number of hunters increases. Generally, the number of hunters in an area is directly related to the number of roads.
- The combination of more hunters and their increased mobility in roaded areas increases the vulnerability of deer and elk to harvest. Deer and elk in a heavily roaded area are more likely to be killed during the hunting season, and for that reason these areas have fewer old bulls or bucks. It also means that hunting seasons have to be shorter to prevent over harvest.
- Research shows that slow moving vehicles on primitive roads and trails are more disturbing to elk than fast moving vehicles on highways. Slow moving vehicles traveling cross-country have the same effect. Deer and elk often flee from the sound of motor vehicles and may leave the area.
- The number of ATVs in Idaho has increased fivefold since 1994; in 2005 more than 90,000 off-highway vehicles were registered in the state. Most people who own ATVs use them for hunting.
- Conflicts occur where ATVs have increased access into areas that were lightly used in the past. Conflicts also occur because some people select areas closed to motor vehicles for hunting and are upset when these rules are violated by others.
- Cross-country travel with motor vehicles can create a network of new travel ways that cause erosion, spread noxious weeds, and damage fish and wildlife habitats. Much of this cross-country travel occurs during the hunting season. To reduce these impacts, Idaho's land and wildlife managers ask all hunters using motorized vehicles to stay on roads and trails and use designated routes where they are established. Do not travel cross-country with a motor vehicle.

Look for Designated Routes on Public Lands

- The U.S. Forest Service and Bureau of Land Management have already established designated routes in several areas of Idaho. Please pay attention to the travel system in the areas you hunt.

For more information about travel management on Idaho's Federal lands, contact these offices or websites:

- U.S. Forest Service 208-373-4007 website: www.fs.fed.us.
- Bureau of Land Management 1-888-246-7523 or 208-373-4000 or website: www.id.blm.gov.

Access management helps wildlife and hunters. Please observe established road closures and access restrictions. Report road closure violations by calling 1-800-632-5999, or any Idaho Fish and Game, BLM or U.S. Forest Service office.

Idaho's Motorized Vehicle Restriction

Wisely managing roads, trails and motor vehicles will:

- Yield more old bucks and bulls.
- Permit more hunting opportunity.
- Allow longer seasons.
- Decrease erosion.
- Reduce conflicts.
- Reduce damage to habitat and the spread of noxious weeds.

Best of all, it will make hunting better.

Remember!

- Observe road closures and access restrictions.
- Say no to cross-country travel.
- Stay on roads and trails open to motorized travel.
- Use designated routes where they're established.
- Follow Idaho's Motorized Vehicle Restriction Rule.

Motorized Vehicle Restriction Rule

The Fish and Game Commission has adopted motor vehicle use restrictions while hunting big game and upland game to resolve many hunters' concerns about off-road travel. The restricted units are: 29, 30, 30A, 32, 32A, 36A, 37, 37A, 39, 45, 47, 48, 49, 50, 51, 52, 52A (muzzleloader), 53, 56, 57, 58, 59, 59A, 66, 69, 70, 72 (late season), 73, 75, 77, and 78.

Motorized Vehicle Use Restrictions.

The use of motorized vehicles by hunters as an aid to hunting big game and upland game animals is restricted in certain areas. This use restriction is in addition to all federal, state and local laws, rules, regulations, ordinances and orders; including, but not limited to, any motorized vehicle licensing, registration, and permitting requirements and traffic laws. Hunters must comply with all motorized vehicle limits or prohibitions instituted by the landowner or land manager. Also, this use restriction rule is not an exception from, and is in addition to, the statutory prohibition against hunting from or by the use of any motorized vehicle set forth in Idaho Code Section 36-1101(b)(1).

Use Restriction. In designated areas and hunts, hunters may use motorized vehicles only on established roadways that are open to motorized traffic and capable of being traveled by full-sized automobiles. Any other use by hunters is prohibited. All off-road use by hunters is prohibited.

Exceptions. This use restriction rule shall not apply to the following permissible motorized vehicle uses:

- a. Holders of a valid Handicapped Person's Motor Vehicle Hunting Permit may use a motorized vehicle as allowed by the land owner or manager.
- b. Hunters may use a motorized vehicle to retrieve downed game if such travel is allowed by the land owner or manager.
- c. Hunters may use a motorized vehicle to pack camping equipment in or out if such travel is allowed by the land owner or manager, but hunters may not hunt while packing camping equipment.
- d. Private landowners, their authorized agents and persons with written landowner permission, may use a motorized vehicle on their private land, but they may not hunt from or by the use of any motorized vehicle.

Restricted Areas and Hunts. This motorized vehicle use restriction applies to identified areas and hunts in all big game management units. Hunts and areas with a motorized vehicle use restriction are identified in each big game season.

Defined Terms

- a. A full-sized automobile is any motorized vehicle with a gross weight in excess of 1,500 pounds.
- b. An established roadway is as any road built, maintained, approved or designated by any government entity or private landowner for the purpose of travel by full-sized automobiles. An established roadway shows evidence of repeated use by full-sized automobiles, and may include a traveled way of natural earth with depressed wheel tracks and little or no vegetation in the tracks.
- c. A hunter is a person engaged in the activity of hunting as defined in Idaho Code Section 36-202(j).

Highway rights-of-way: The entire width between the boundary lines of every highway publicly maintained when any part is open to the use of the public for vehicular travel, with jurisdiction extending to the adjacent property line, including sidewalks, shoulders, berms and rights-of-way not intended for motorized traffic. No person shall shoot from a public highway or discharge any firearm from or across a public highway

Special Vehicle Restrictions

State and federal agencies and private landowners have established road closures in key big game areas to protect deer and elk populations. Please check with regional Fish and Game, U.S. Forest Service, or Bureau of Land Management offices for information regarding vehicle restrictions on roads, trails, and unroaded areas.
